

I am pleased to inform you that, together with my colleague Ms Anna Záborská MEP, I have submitted Written Declaration No 29 requesting the establishment of a European early warning system for paedophiles and sex offenders. A normal childhood for our children means a solid future for our, and for their, European Union. Any act of violence suffered by a woman or a child is an indelible defeat of the rules of civilised coexistence. We would therefore be very grateful if, as many other colleagues have already done, you could support this important Written Declaration No 29 '**On setting up a European early warning system (EWS) for paedophiles and sex offenders**'. The proposal does not involve the establishment of a new European agency but rather greater levels of cooperation between the public authorities and civil society **in order to defend the weaker members of society and protect the rights of all**.

**I may be contacted as follows:**
